## SEASONAL NOTE

WELCOME TO THE FIRST EDITION OF OUR SEASONAL E-BOOK SERIES.

Each e-book will contain our favourite recipes for each season which we hope will give you ideas for creating your next breakfast, lunch or dinner.

Some of my fondest memories as a child were had through many summers on the farm. It was always a hive of activity with more family about helping in some way and this meant more time with my cousins, some are still part of the business today.

Today the business has grown a little more since those early summer days but the buzz through summer is much the same, produce is growing fast, days start very early and packing runs longer to ensure we get our produce out to stores in the freshest way and fastest possible time.

Cucumbers are delicious through the summer months, Herbs are sweeter than ever, our hydroponic lettuce is growing before our eyes, and all perfectly timed for peak salad season. One vegetable that is well and truly in full swing through summer is Corn, right now we are harvesting off our NSW and Victorian farms, supply and quality is looking excellent.

When it comes to cooking, I'm actually a bit of a BBQ man so I often BBQ a lot of our vegetables at home before mixing them into a salad or serving as simple sides to fish or steak. The first edition of our e-book series has a couple of my family favourites included, one being the barbequed Zucchini strips with Basil and a wedge of lemon (recipe on page 4), so quick and simple.

Come, take a look, feel inspired and maybe give one or two recipes a go.

Don't forget we love seeing your creations so be sure to tag us #livefreshgoals @hydroproduce

Enjoy!  
See you in Autumn

# SWEET POTATO AND CORN MEXICAN FRITTERS

**PREP TIME: 30 MINS**  
**COOK TIME: 60 MINS**  
**MAKES: 36**

## INGREDIENTS

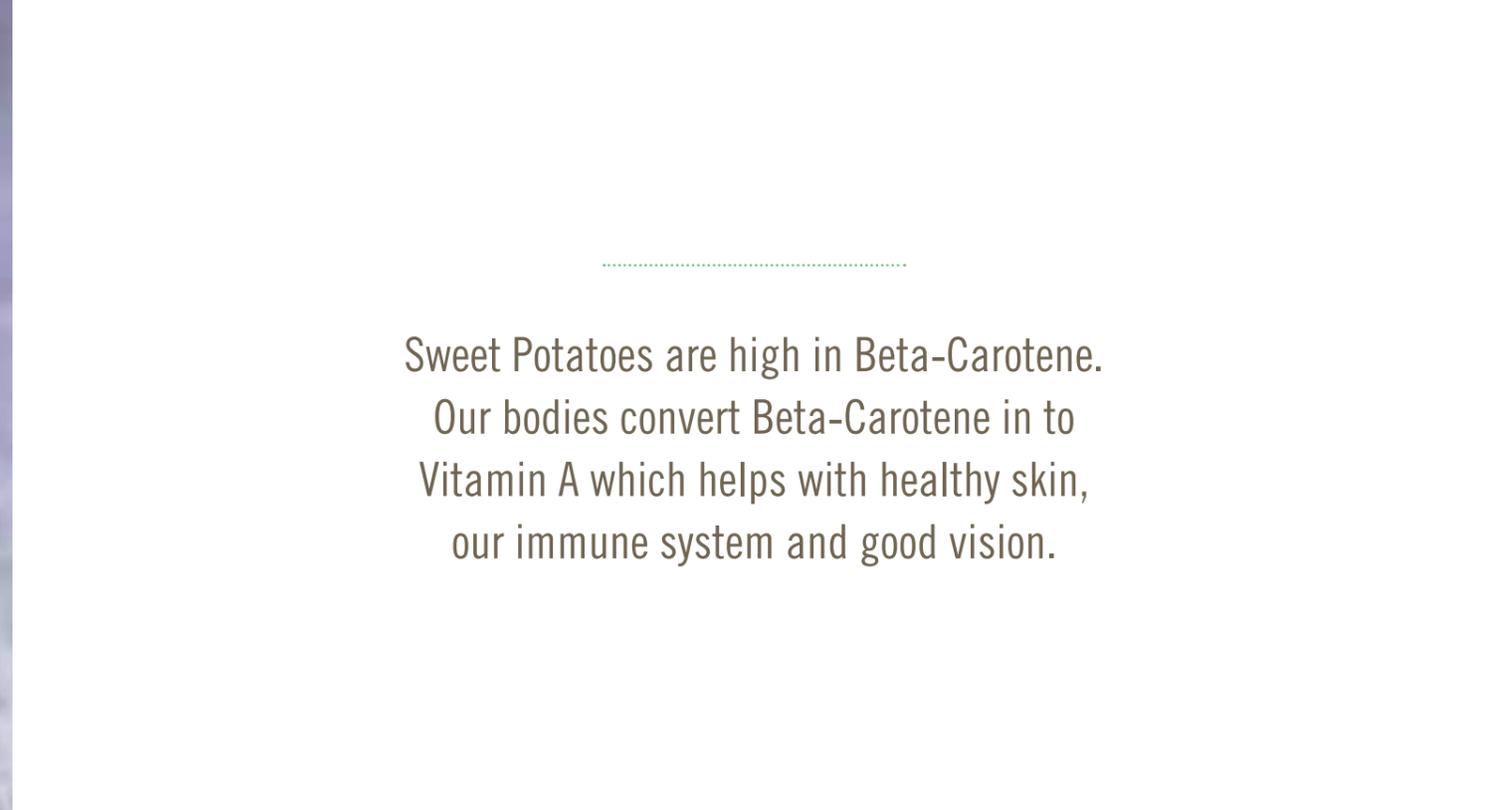

1kg sweet potato, scrubbed  
40g sachet fajita spice mix  
2 cups panko breadcrumbs  
1 bunch coriander  
4 cobs corn, kernels removed  
Vegetable oil, for frying  
Lime wedges, to serve

## Chipotle Mayo

½ cup whole egg mayonnaise  
3 tsp chopped chipotle in adobo sauce  
1 tbs lime juice

## METHOD

1. Preheat oven 200°C fan forced. Pat the sweet potatoes dry. Cut in half lengthways and put onto a lined baking tray in a single layer. Spray both sides with olive oil. Roast cut side up for 45 minutes or until tender. Set aside to cool. Combine all the chipotle mayo ingredients together.
2. Scoop out the sweet soft flesh from the roasted sweet potato, you should have about 2 ¼ cups (reserve skins for Sweet Potato skins recipe). Spoon flesh into a large bowl. Add the seasoning and 1 cup panko crumbs. Roughly chop half the bunch coriander leaves and stems, stir into sweet potato mixture with corn and mix well.
3. Shape spoonful sweet potato mixture into balls, roll in remaining panko crumbs to lightly coat surface. Pour enough oil into a large frying pan to shallow fry. Heat over medium heat until hot. Cook fritters in batches for 4-5 minutes, turning until golden. Remove to a wire rack to drain, keep warm in the oven while cooking remaining fritters. Serve with lime wedges and chipotle mayo.

Sweet Potatoes are high in Beta-Carotene. Our bodies convert Beta-Carotene in to Vitamin A which helps with healthy skin, our immune system and good vision.
